

# FLORENCIUS INTERNATIONAL SCHOOL

*Preparing your child for a fast-changing world!*

# Florencius International School

*Florencius International School is a young, dynamic international school close to Amsterdam, where children get the attention they deserve. Because of our holistic approach, children at Florencius International School develop into positive but critical, self-confident global citizens. High ambitions also ensure we know how to get the best out of each student.*

## Why Florencius International School?

- › Small groups (1 teacher per 8 pupils max)
- › Individual attention
- › Personalised instruction
- › 4 Qs; holistic approach
- › Immersion in Dutch community
- › High academic and social/emotional standards

## For who?

Florencius International School is a primary school for children aged 4-12 years. Our close collaboration with the Florencius Dutch school means that our school is an excellent choice for children and families who are interested in an international education, but also want to feel at home in The Netherlands or already have a home in The Netherlands. We are also the best choice for children who need a safe, small and familiar environment in order to develop and flourish.

## School Hours

Florencius International School is open on Monday, Tuesday, Thursday and Friday from 8.30 to 3pm. On Wednesday the school is opened from 8.30 to 12.30pm.

## Location

Florencius International School is located in a beautiful, monumental building, adjacent to a park and close to Amsterdam, with museums, library and theatre within walking distance of the school.

## Curriculum

Each student has a unique set of talents and skills which we want to cherish and develop. At Florencius International School all students are given a personal development plan, with well-defined objectives that help us to keep the learning process clear and transparent for students, parents and school.

## 4 Qs - a holistic approach

People aren't one-dimensional. Not only is knowledge important but also social skills, knowing about your own body and self-management help people to be happy and successful. Stephen Covey's 4 Qs are the DNA of Florencius International School and are at the basis of all the educational choices we make.

## British standards

Students follow the British National Curriculum for mathematics and language. In keeping with the 4 Qs, we set personal learning objectives for our students and follow the curriculum as required. The Maths and Language schemes that we use are aligned with the British National Curriculum and allow us to teach using a wide variety of teaching methods that inspire, encourage and challenge our students whatever their ability.

## International Primary Curriculum (IPC)

IPC focuses on a combination of academic, personal and international learning goals for children worldwide. Students strive to achieve specific learning goals through a well-defined, student-led learning journey.

**FLORENCIUS**  
INTERNATIONAL SCHOOL

Florencius has got a great program, friendly environment and amazing teachers who helped our kids become more confident, independent and curious. Despite not speaking English at the beginning our kids got in love with the school from the very first day!
